

RISK ASSESSMENT AND RISK MANAGEMENT RECORD							
Establishment	Clapham Netball	Activity	Junior Netball Training	Activity Timings	Sat 8.30-10.30am	Date	Weekly from 01/09/2025
Location/Purpose	Harris Academy, Clapham & Glenbrook Primary School, Clarence Avenue, SW4 8LD					Group size	<220 children / age group. 30/ crt & coaches.
Leader	Chris Graham All Coaches are first aid trained.	Adults: children ratio	As per England Netball 1:8 or 1:10 depending on age of participants				

Area for consideration	List of Possible Risks	Control measures – reducing the risk
SITE BEING VISITED AND ENVIRONMENT	This is a School and we are delivering a planned and fully supervised Netball Training Session each week, so dehydration & possible injury through participation are possible risks. Training across 4 outdoor courts, 1 Sports Hall, multiple court areas require supervision. Court surfaces need checking in advance, and post stability / height.	Children have been told to bring water bottles, Coaches understand and deliver their plans weekly, adapting to the Juniors, weather, court conditions and know who the First Aiders are. Children will be with an adult at all times. Players not to enter court areas without Coach in attendance. Coaches to visually check all court areas for hazards.
GROUP	Children not listening and following instructions when asked.	Our Netballers have been attending Clapham Netball for a number of months. New to the club members, are made aware of expectations for behaviour and listening whilst at the training session.

CHILDREN WITH ADDITIONAL NEEDS/MEDICATION/ALLERGIES	These are noted on the register. First Aid kits are located in Kit Bags (x4) along with nearest hospital details. We use Spond for parent contact details (GDPR).	Children do not eat on site. At Camps, any child with an allergy will eat separately, and all participants will wash their hands to reduce the risk of contamination and therefore risk of a food related reaction. Epipens for those with severe allergies are carried by the child. All Coaches first aid trained & have access to Spond for parent contact details / child medical conditions.
TRANSPORTATION / PLANNED ROUTE	Risks include lost child, falling off kerbs, tripping in street when walking to parent cars.	Children are brought and collected by parent. All enter through Harris Academy, Clarence Avenue entrance and are registered on arrival by Coaches. At dismissal, adult Coach in charge dismiss all children to their parent (U8-12's). There are no parents on site during training however there are other groups (using dance hall and classrooms). Toilets in Dining Area to be used, no.
ACTIONS TO TAKE IF CHILD IS NOT COLLECTED /INVOLVED IN AN INCIDENT e.g. methods of communication, agreed meeting points, Coaches all have each other's phone numbers. This is a School Site, with a (school security) manned gate. Head Coach will contact child's parent in the event of non-collection, or an accident, after administering First Aid.		
IS THERE A RISK ASSESSMENT AVAILABLE FROM SPECIFIC ESTABLISHMENT? Not yet received.
